Core Covered with Clay

10-14  
Base Units  
to Cover

Front

Side

*After you've wrapped the central core, formed the hip joints, beveled the shoulders, and arched the back, the core should match this pattern. To cover the core, follow the steps in Part 6. Use 10 Base Units for a slender body, 12 for an average body, and 14 for a stocky body, but don't forget to reduce the Base Unit to the right size.*

## BUILDING UP THE BASIC BODY

*Build up the basic body with the same appliques, but scale them down for the 1/8 scale figure by using the smaller 1/8 scale Base Unit as shown here.*
